CSC POSTER CONTEST 2013

Male Winning Poster

HEPATITIS...

DON'T GET NAILED

GET INFORMED, GET TESTED...
CSC POSTER CONTEST 2013

Honourably Mentioned

HEPATITIS

Alcohol can cause serious liver damage.

It's not the blood you see, it's the blood you don't see.

Be informed, knowledge is power!

Hepatitis reduces your white blood cells. So it's hard to fight infections.

Hepatitis targets the liver. Protect your liver, you can't live without it.

Get immunization for Hep A & B

Excessive snorting can cause nose bleeds. Sharing snorting devices can spread hepatitis.
